

GARBAGE QUESTION

A Serious Matter That Now Confronts the City.

WHICH IT WILL HAVE TO DECIDE

Very Soon—The Old Crematory is Almost Worthless, and Undoubtedly a New Method will Have to be Found to Dispose of the Garbage of the City—The Butchers' Proposition—It would be well for the Authorities to Confer with the Association.

The disposal of the garbage of the city is one of the most important questions that now confronts the health authorities of the city. There is now awaiting disposal many tons at the city crematory which cannot be done away with for the simple reason that the old ramshackle concern on the top of the hill is not only pretty nearly played out, but it has not the capacity for the amount of work that it is expected to do. The situation, while not critical, is very serious.

Dr. S. L. Jenson, the health officer, pointedly stated at the last meeting of the council health committee that some other provision than that which obtains on the hill would have to be provided soon for the effectual and healthful disposal of the garbage of the city. The furnaces are almost constantly in need of repairs. But that was not the main cause for the consideration of another method for the disposition of the city's refuse. The natural gas in the winter, low at every point at that time of the year, has been woefully lacking at the crematory, and it is only a question of time until the city, if the present method is used, will have to use coal as fuel. The expense of carting coal to the crematory is too obvious to point that fact out.

It now costs the city nearly \$6,500 to collect the garbage, and nearly \$1,700 to run the crematory, making a total cost to the city of disposing of the garbage of over \$8,000 a year, and then does not perfectly.

What is to be done? The Wheeling Butchers' Association made a proposition to the city to take care of the garbage for \$4,000, but this was afterwards withdrawn for reasons that the association consider private. The butchers' association have a plant in Fulton, located on the Louis Orth property, which will be in successful operation in about one week. In withdrawing their proposition they intimate that they are open to a proposition from the city. They claim they are capable of taking care of all the city's garbage, but in case they entered into a contract with the city they would have to put in new machinery to turn the city's offal into fertilizer. It would be more expensive to them for the reason that the garbage would have to be treated chemically before they obtained a marketable product. The association will also take care of the night soil, if they can come to a satisfactory understanding with the city in regard to that matter.

A state of affairs confronts the city. A new and enlarged crematory—in another location—or a dicker with the butchers' association, and it depends on council which alternative shall be taken. The main question with the people is the surest, safest and cheapest method of disposing of the garbage.

On last Monday President Charles Hoffman and Secretary William Niebur, of the butchers' association, went to Pittsburgh, with the following members of that organization: Chris. Kalmater, Charles Rohrig, W. P. Meyer, Charles Meyer, Fred. Schmitt, William Hess, E. G. Garner, John Dunham, William Rohrig and Louis Niebergall. Mayor Ed. Hamm, of Fulton, and Councilman C. L. Ebeling accompanied the party. They visited the Flinn Reduction Company's plant, and the Pittsburgh Provision Company's works. In the first place all the garbage is reduced to fertilizer, but Mr. Flinn gets \$65,000 a year for collecting the garbage of the city. The provision company's plant only deals with the offal of butchers. The butchers' association of this city believe that a conference between their officials and the proper city authorities would result in something definite in unravelling the problem that now stares the city in the face. The visit of their committee to Pittsburgh has shown them that they can, with additional machinery, handle all the city's garbage, and they are now waiting for some intimation from the authorities that bears the semblance of business.

SOUTHWEST OIL NEWS.

There is Great Activity in all the Lower Oil Fields Now that Roads Have Improved.

Now that the roads are again in passable condition there is renewed activity in the southwest oil fields. An oil man who is acquainted with what is going on in the various fields says that more is being done, even than in the spring of '95, when an immense amount of field work was done. There is no busier spot than that part of Marshall county that surrounds the recent Rogerson strike of the North Penn Company.

Three weeks ago the North Penn Oil Company drilled its well on the Rogerson farm, and it has been making on an average of 100 barrels a day. The well has not been worked to its full capacity for the reason that enough tankage has not been provided to take care of the oil. The Eureka Pipe Line Company is now building a pumping station on the Bell farm and is laying a line from the pump station to Glendale, on the Baltimore and Ohio railroad. The oil will be pumped to that point and then shipped to the markets by rail.

Eleven new rigs are now up and building in the vicinity of the new strike on the Rogerson farm. They are owned and located as follows: Two by the North Penn Oil Company on the Rogerson farm and one on the Griffith farm; two by Johnston, Dorsey & Company on the Otto and Markey farms; one by the Springer Oil Company on the Yancey farm; two by unknown parties on the Prager and Bell farms; one by Stewart & Bruner on the Griffith farm; one by Galey Bros. on the Crow farm, directly south of the producing well and one by Holt & Crispin on the J. J. Price farm.

The plugged hole at Viola has been abandoned and the rig removed, and drilling begun at the new location. A good showing of oil was found in the Cow run sand, but owing to the trouble the new well could not be tested. Good progress is being made at the Fry and Barnett wells and both are expected to get the sand within a week or ten days.

The Jolly Bros. well on Tom's run is expected in the sand early next week. The contractor has been having a run of hard luck at this well. It is now paid for.

Many new wells have been located, but active operations have not yet begun. The Wheeling Gas Company is pushing the work on its main and will soon have the big gasser on the Howard farm, near Cameron, Marshall county, connected up. The gas will be taken to Moundsville and other points north. The same company is drilling another well on the Barnett farm in the locality of the Howard well.

A splendid Cow run sand well was drilled in on the Frank Haynes farm, in the old Waverly developments. The Wheeling Gas Company under lease the large farm of O. P. Dunham at Valley Mills, and will put down a test well at once. The well is located considerably in advance of developments and will be closely watched by holders of leases in that vicinity.

In Wood county, near Chesterville, J. C. Sibley and others have started a test well. This company owns a large block of leases in that locality. The South Fork Oil Company is rig-

ging up on the J. W. Huffman farm on the south fork of Lee creek. Park Bros. have finished up their well on the Smith farm, at Burning Springs and have a duster.

The Canadian Oil Company is reported to have finished up a good producer in the Drake field.

The Ogden field, a new Berea development, located at the headwaters of Worthington creek, and three miles due south of Waverly, is looked upon with much favor by operators who have given the territory and wells some attention. There are now three producing wells in the field and their average production is sixty barrels a day. The last of the three was drilled in last week and put to pumping and is producing seventy barrels a day. It is located on the Dyke farm. Ten or more rigs are up and building and the outlook for a lively, early-summer campaign in the Ogden field is very promising.

T. N. Barnsdall is a large holder of territory in the Ogden field and he will lose no time in testing it. Operations in the Bull and Calf creek territory, above Waverly, have quieted down and at present very little is doing in that locality. The completed wells have settled down to very insignificant pumps.

Brookline Oil Map.
The map of the West Virginia oil field, compiled by Mr. Sam Hugh Brookline, and of which mention has been made in the Intelligence, is for sale at Heiskell's news stand at the McClure house, and can also be had of Mr. Brookline at his office, in the Peabody building, Market street. The Standard Oil Company considers it the best map ever made of the oil fields in this state.

A Good Producer.
STEUBENVILLE, Ohio, April 22.—George Givens' No. 3 well on the Brady farm, in the Island Creek field, has been drilled in and is showing for a fair producer.

OHIO COUNTY CLUB.
The Central Republican Organization will meet to-night.

To-night the Ohio County Republican Club will hold a regular meeting at its hall in the Odd Fellows' building, Twelfth and Chapline streets, at which the mock legislature, a feature that proved so popular and enjoyable last winter, will be reorganized. The members are expected to be on hand in force, and it is desired to be known that Republicans who are not members are welcomed. There should be a large crowd on hand at 7:30 this evening, when President Bently Jones calls the meeting to order.

THE BICYCLE COURTIERS.
They will assist in bringing in the Republican Primaries Returns.

The wheelmen who gave such a signal exposition of the usefulness of the bicycle by bringing in the returns from the outlying districts of the county last Saturday night on the occasion of the Democratic primaries, will repeat their performance next Saturday unless the rains shall have made the roads unfit for cycling. Though the personnel of the couriers may be slightly different it is probable the same young men who acted last Saturday will take part, as follows:

Valley Grove, Liberty district—Walter Worla.
Glendale school house, Triadelphia district and Triadelphia town—Jesse McCausland.
Berk school house, Richland district—Walter Cochran.
Cane run school house, Richland district—Abe Heraberg.

By perfected arrangements in counting the vote it is believed all of these outlying precincts will have been reported before 11 p. m.

YESTERDAY'S DEPARTURES.
Charleston...RUTH, 8 a. m.
Pittsburgh...BEN HUR, 9 a. m.
Newport...JANNEY, 11 a. m.
Clarinton...JEWEL, 3:30 p. m.
BOATS LEAVING TO-DAY.
Pittsburgh...LORENA, 4 a. m.
Pittsburgh...H. K. BEDFORD, 5 a. m.
Cincinnati...HUDSON, 8 a. m.
Parkerburg...JANNEY, 11 a. m.
Metamoras...LEXINGTON, 11 a. m.
Clarinton...JEWEL, 3:30 p. m.
BOATS LEAVING TO-MORROW.
Cincinnati...VIRGINIA, 8 a. m.
Parkerburg...BEN HUR, 9 a. m.
Newport...JANNEY, 11 a. m.
Clarinton...JEWEL, 3:30 p. m.

Along the Landing.
To-day's Cincinnati packet—Hudson, at 8 a. m.
The H. K. Bedford and Lorena will pass up for Pittsburgh early this morning.

The marks at 6 p. m. yesterday showed 10 feet 3 inches and stationary. Weather clear and warm.

The Onedra, sunk in the Kanawha river the other day, will be raised without much trouble, it is said.

Yesterday's local packets were the Evansville and Jewel. Both had fair offerings here and got away on time.

The Ruth, for Charleston, got away yesterday morning at 8 o'clock. She was detained above somewhat by heavy business.

The Hawk, of the Huntington & St. Louis towboat line, came up from below yesterday at 5 p. m., with two model barges loaded with pig iron for the Aetna-Standard mill, over the river.

The Ben Hur, Captain Kimple's popular Pittsburgh and Parkersburg packet, passed up yesterday at 9 a. m. The Ben is doing an excellent business in her trade.

The Pittsburgh Sand Company, which has entered the local field, has nearly completed its incline railway at the foot of Twenty-fourth street, South Side. The company's sand boat, Cascade, arrived here yesterday from Pittsburgh. It is a modern craft of its character.

The Virginia's tourist offerings are very heavy. The Keystone and Hudson also have all they can handle. If the river continues at a good stage the packets will have the most successful summer tourist season in the history of the line. There have been good water steadily since the New Year.

River Telegrams.
WARREN—River 2 feet 5 inches. Clear and warmer.
OIL CITY—River 3 feet 5 inches and falling. Clear and cool.
MORGANTOWN—River 7 feet 5 inches and stationary. Clear and pleasant.
GREENSBORO—River 7 feet 6 inches and falling. Clear and cool.
PITTSBURGH—River 8 1/2 feet and falling at the dam. Weather clear and cool. There is a good large stage of water, the result of Monday night's rain. There is not a large amount of coal loaded, but quite a number of boats will depart. Many boats are now on their way to the river with empties, and as soon as they arrive the craft will be taken up into the pools to be reloaded. Among the towboats to arrive were the George Shiras and the J. C. Risher. Captain Charles Menges, owner of the F. A. Goebel, is negotiating for another boat in the Pittsburgh and Charleston trade. He expects to be able to have the boat here in a few days. It is said that he is after the Dick Brown.

PARKERSBURG—Ohio river 10 feet 3 inches and rising. Clear and warm. Up—Liberty, Valley Belle, H. K. Bedford, Heisterington and Elaine, Lewy—Ruth and Adelle. Little Kanawha falling. Locals on time.

LOCAL BRIEFS:
Matters of Minor Moment in and About the City.

To-night—Ohio County Republican Club's mock legislature reorganizes.

The American Star club will give one of their popular dances at Central hall, South Side, to-night.

The United East End Club gave a ball at Turner hall last night, which was very liberally patronized.

There was a light frost in the country yesterday morning, but it did no damage to growing vegetation.

Mr. D. C. List, Jr., qualified yesterday as executor of the estate of Ambrose Stoehr. Bond \$1,500, no security required.

The Springer Oil Company, of this city, held its annual meeting yesterday and elected directors and officers for the ensuing year.

The Fulton volunteer fire department gave a ball there last evening that was well attended and very enjoyable. The committee in charge of the affair did good work.

Yesterday the following transaction in real estate was admitted to record in Clerk Hook's office: Deed made April 21, 1896, by Jacob Fisher to John Ebbert, for a parcel of land in Triadelphia district, for \$400.

The council committee on petitions and remonstrances has been called to meet this evening at the city building. It is important that this committee should have a quorum, as there is business of importance for its consideration.

The street railway company now has eight summer cars in service and within a few days the equipment will be entirely of the open body car. In about a month, announces General Manager Wright, the five minute schedule will go into effect.

Mrs. Annie Mercer, of Fairfield, Nebraska; Mrs. Maggie Fowler, of St. Thomas, Canada; and Mrs. E. T. Wells, of this city, are visiting their brother, Sheriff Cowan, of Brooke county, who lies dangerously ill in a Wheeling hospital. Steubenville Herald.

The speed track of the State Fair Association is now in first class condition, and is an excellent place for driving. Parties desiring season tickets can be accommodated by applying to Secretary George Hook, or at the gate. Bicycle riders have the privilege of using the track except between the hours of 4:30 and 8 o'clock p. m.

The McKinley Colored Republican Club will give a ball and concert this evening, at Beethoven hall, Fourteenth street. The members and their friends are taking an active interest.

The Bullard Camera factory on Twelfth street will be completed and making its line of photographic goods in three weeks. The machinery equipment is nearly all in.

A South Side boarding house was robbed on the night of April 15, and Patrick Hoe was the guilty party. Patrick has escaped capture so far, but a complicated case of the identification of a watch came up before Justice Fitzpatrick last night, when the further inquiry into the matter was postponed until this evening, in the hope of getting an important witness.

A Hung Jury.
Special Dispatch to the Intelligence.
HUNTINGTON, W. Va., April 22.—Charles Ringo, colored, has been on trial for four days for the murder of his two step children. The jury this evening, after being out almost thirty hours, could not agree. Ten jurors were for conviction and two for acquittal. Ringo is a desperado and is known by his depredations in many states.

Upright Piano for Sale.
Seven months ago we sold a fine Walnut Upright Piano for \$400 to a lady in this city, who is obliged to sell it at once.

In order to do so quickly we offer the piano for \$265 on payment of \$25 cash and \$10 per month, or \$235 cash. The piano is in perfect condition and can be seen at our store, 1510 Market street. F. W. BAUMER & CO.

G. A. R. Encampment at Clarksburg.
West Virginia, April 29 and 30, 1896.
Account of the above State Encampment the B. & O. will sell excursion tickets to Clarksburg, April 27th to 30th, at one fare for the round trip, good returning until May 4th. ths&m.

SOOTHING, healing, cleansing. DeWitt's Witch Hazel Salve is the enemy to sores, wounds and piles, which it never fails to cure. Stops itching and burning. Cures chapped lips and cold-sores in two or three hours. Logan & Co., Wheeling, W. Va., B. F. Peabody, Benwood, and Bowie & Co., Bridgeport, O.

Bank

President Isaac Lewis of Sabina, Ohio, is highly respected all through that section. He has lived in Clinton Co. 75 years, and has been president of the Sabina Bank 20 years. He gladly testifies to the merit of Hood's Sarsaparilla, and what he says is worthy attention. All brain workers find Hood's Sarsaparilla peculiarly adapted to their needs. It makes pure, rich, red blood, and from this comes nerve, mental, bodily and digestive strength.

"I am glad to say that Hood's Sarsaparilla is a very good medicine, especially as a blood purifier. It has done me good many times. For several years I suffered greatly with pains of

Neuralgia

in one eye and about my temples, especially at night when I had been having a hard day of physical and mental labor. I took many remedies, but found help only in Hood's Sarsaparilla which cured me of rheumatism, neuralgia and headache. Hood's Sarsaparilla has proved itself a true friend. I also take Hood's Pills to keep my bowels regular, and like the pills very much." ISAAC LEWIS, Sabina, Ohio.

Hood's Sarsaparilla

It is the True Blood Purifier. All druggists. \$1. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are prompt, efficient and easy in effect. 25 cents.
